

Creating a new world
of IP opportunities

T328 – Executive IP Phone

**Looking Good &
Sounding Great**

The T328 IP phone offers the business executive convenience, crisp sound quality, and ease-of-use. The T328 comes with multiple soft and programmable keys, has one-click access to internal and the company's central directories, and can be equipped with up to three expansion modules. As a member of the T300 family of Tadiran IP phones connected to either Coral or Sea Softswitch systems, these phones allow users to take full advantage of a rich set of telephony capabilities. And with a large graphic display, excellent HD voice quality, and user-friendly administration, T328 adds up to a pleasurable sound experience.

Highlights

- Large graphic display
- Robust, elegant design
- Superb HD G.722 voice quality
- 16 programmable buttons & four soft keys
- Hundreds of code activated features
- Up to three optional expansion modules
- 16 SIP user accounts & multi-line appearance keys
- Personalized ring tones, call progress tones, etc.
- Group Listening
- Multi-language support
- Local numbering plan
- Local & centralized phone directory
